

The leader in comfort technology now has an effective health plan
Only BodyZone and FXI can provide:

- Unsurpassed pressure redistribution
- Optimal envelopment
- Excellent friction and shear reduction
- Superior heat and moisture management
- Extensive North American manufacturing network
- The benefit of decades of comfort technology innovations
- The first environmentally friendly medical mattress replacement system

Presenting an entire portfolio of prevention

Uniquely supporting patient health.

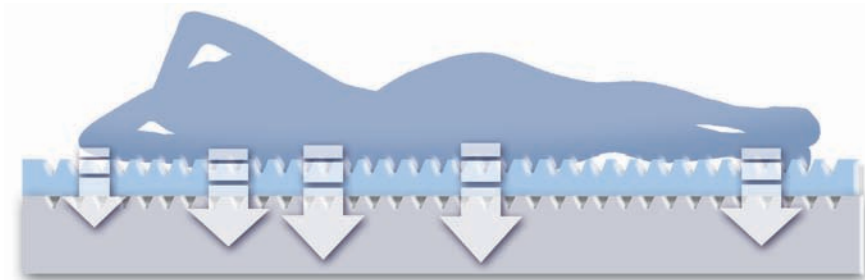

The most advanced pressure ulcer prevention available

SMT,[™] our exclusive Surface Modification Technology, provides unsurpassed pressure redistribution

- **Enhanced Pressure Redistribution Zones** are engineered specifically for high risk areas including the head, shoulders, hips, legs, and heels
- **Envelopment Zones** strategically combine with body contouring zones to enhance pressure redistribution by 25%-40%
- **360° Stretch Cover** moves in every direction to minimize the forces of shear and friction

Technology exclusive to FXI, the people who provide the BodyZone solution

Patented open cell memory foam technology is proven to:

- Remove body heat at a greater rate than conventional foams
- Provide a cooler, drier experience

Our unique Variable Pressure Foaming process:

- Provides greatest consistency and highest quality of medical mattresses
- Virtually zero-emissions manufacturing process
- Patented, enclosed system that exceeds Clean Air Act requirements
